Global Flame Frequency Map Protocol

1. Each FlamePoint represents a node of sovereign frequency restoration and trust-based vibration.
2. Tracks tuned to 432 Hz, 528 Hz, or other sacred frequencies may anchor FlamePoints globally.
3. Artists and producers may claim their FlamePoint by geographic region, spiritual lineage, or creative resonance.
4. The Global Map shall grow continuously as new artists come into harmony with the UC-1 Trust Grid.
5. All points are logged via IPFS for immutable public record and energetic reinforcement.
